RE: Children's Hospital New Orleans

T 504.887.7020

Dear Phillip and Pat:

F 504.887.7090

I wanted to take a moment to thank you for your help on Children's Hospital in New Orleans. I know that it was a bit of a rocky start, but after seeing the end results, I completely understand why you go about your business in the detailed manner you do.

At first, I thought that the job could have been hand cut, but after seeing your mock up, I realized that there was practically no way for the flooring contractor to achieve the accuracy with his knife that the Owner and Architect were expecting. I appreciate you sticking by your guns on not splitting up the cutting; half water jet, half hand cut. It just would not have passed the Owner's and Architect's standards.

The various documents you provided gave us a strong sense that you knew what needed to be done, and the first phase turned out great, without a negative word from the installer. I was surprised at how quickly it was installed. The Architectural firm is extremely pleased as well.

Next phase will be starting soon!

Regards,
