Subject: Thank you

Philip,

Thank you so much for the key chains, coasters and pictures. You are so kind. Everyone loves them.

I appreciate you taking the time to come by and meet with me last month. We are very pleased with the work that your company did on Texas Southern University and we are looking forward to additional work. I am meeting with the architect and designer on the new radio station/ recording studio that we have started building. I will be very happy to make some suggestions about the entrance areas and show them your disc. I think they need to see the type of work that you do. I know I am impressed and I am sure that your marketing tools will give them some ideas as well.

I look forward to our continuing business together.

Thank you,

Lynn E. Keener
